Subject: [NLLETS] Minutes on Website

From: admin@nllets.org.uk

Dear Members

Many of you will be aware that from February 2007, cleared minutes of NLLETS management group meetings have been available to members in a password-protected "Members Area" of the website, the password being sent to members in each printed newsletter, which avoids contentious material being distributed in printed or emailed circulars.

In September 2008 a member of the management group asked me to remove the minutes for data-protection reasons, because surnames had been included. Due to the work involved of taking out the surnames from the original word documents, converting them back into PDFs and restoring them to the website, there was a gap in this service until Monday 27th July, when I notified the management group that the minutes archive had been restored.

The record is incomplete, because I have not received digital copies of any minutes after those of 14th May 2009. Meanwhile, members received printed copies in envelopes (which long-standing members will be aware was an unprecedented move) of minutes from meetings in June and July, which had been held earlier than the date advertised on the website, thus preventing members from attending (as they should be able to according to the Constitution).

You can read my own report of two meetings I attended in June, **which differs in significant detail from the version you received by post.** You can access them via Useful Pages (without logging on to your own account) with the ID and PASSWORD - *which were circulated in the emailed version of this letter.*

<http://www.nllets.org.uk/archive/index.htm>.

If you have any queries about the above, or can supply me with a digital copy of the latest ones, do let me know.

**Looking Forward, Mary Fee (NLLETS webmaster)**
